

EDUCATION

GLA University, Mathura

Mathura, India

Bachelor of Technology (HONORS) – Computer Science & Engineering; CGPA: 8.05

June 2019 - July 2023

SKILLS SUMMARY

- **Languages:** Python, SQL, JAVA
- **Frameworks:** Pandas, Numpy, Scikit-Learn, Matplotlib
- **Tools:** Power BI, Excel, PowerPoint, MSSQL, SQLite, Oracle SQL
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code, IntelliJ IDEA
- **Soft Skills:** Strong Stakeholder management, People Management, Excellent communication, Data Management

WORK EXPERIENCE

Data Migration Engineer at ELLKAY

August 23- Present

- Converted complex data sets into compatible formats for seamless integration into live servers.
- Migrated critical client data to a live server environment, enhancing accessibility and usability.
- Resolved data discrepancies by analysing client feedback and implementing corrective measures.
- Automated data migration processes, significantly reducing manual errors and improving turnaround times.

PROJECTS

Drowsiness Detection System using EEG

August 22- March 2023

- Developed a comprehensive framework for drowsiness detection
- Using EEG datasets to enhance the accuracy of state classification.
- Implemented various signal processing techniques to transform raw EEG data into actionable wave signals for analysis.
- Analysed EEG datasets to effectively distinguish between active and drowsy states, optimizing the identification of user alertness.,

College Management System

August 21- October 2022

- Developed a comprehensive Teacher Management System to streamline the storage and retrieval of teacher details.
- Designed an intuitive user interface for a college management website that enhances user experience and accessibility.
- Implemented a robust database architecture to efficiently manage and categorize teacher information by department.
- Facilitated seamless data integration between the Teacher Management System and existing college database resources.

CERTIFICATES

IBM Certified Apache Hadoop Developer

January 2024

- Earned Hadoop certification, demonstrating expertise in Big Data processing.
- Skilled in handling large datasets and extracting meaningful insights to drive data-driven decision-making.

Azure AI Certification by Microsoft

March 2025

- The certification provides foundational knowledge of Azure AI, covering its core concepts and fundamental principles to build a strong understanding of AI capabilities within the Azure ecosystem.

Artificial Intelligence(AI) Specialization by IBM and Coursera

September 2025

- Completed the 'Introduction to AI' course, gaining expertise in AI fundamentals, Machine Learning etc.
- DeepLearning, LLM, and Prompt Engineering. Designed and developed customized chatbots using IBM WatsonX Assistant, applying concepts like intents, entities, and dialog management to enhance user interactions.

Google AI Essentials Specialization by Google and Coursera

October 2025

- A strong grasp of AI fundamentals and terminology.
- Understanding of how AI is reshaping various industries.
- Practical skills for implementing AI in daily decision-making processes
